

DOM IM BERG

Access Schlossbergplatz 1
 8010 Graz
 T +43 316 8008-9000
grazer@spielstaetten.at
<https://spielstaetten.buehnen-graz.com>

The 'Dom im Berg' event venue is located in the heart of Graz. It is located directly inside the Schlossberg. The Dom im Berg is a multifunctional event venue. It used to be an air-raid shelter in the Schlossberg.

- You can reach the Dom im Berg without steps via the public Schlossberg lift (there is a separate exit point 'Dom im Berg', which is only open during events).
- The path to the entrance has a **gradient of up to 8 per cent**.
- **The barrier-free entrance is often not the main entrance.** This depends on the event. You will then need an escort because the door is locked.
- **The cloakroom is not barrier-free.** There is a staircase.
- The event room, the bar and the barrier-free WC are on one level. It is level and has no thresholds.

ACCESSIBILITY BY PUBLIC TRANSPORT

Please use the route planner of Verbundlinie Steiermark:
<https://verkehrsankunft.verbundlinie.at/>

Free travel: The ticket for the Dom im Berg is valid as a free ticket on all lines of the Styrian public transport network! The promotion is valid from 3 hours before to 7 hours after the start of the performance. <https://www.buehnen-graz.com/freiefahrt/>

PARKING

- Kastner & Öhler underground car park, approx. 250 m to Schlossbergplatz with the Schlossberg lift
- Short-stay parking zone along Kaiser-Franz-Josef-Kai, where there are also 2 disabled parking spaces at house no. 20 (**parallel to the carriageway**)

GENERAL INFORMATION

- There is a discount for people with disabilities, registered carers, children and young people
- Assistance dogs are welcome (preferably with registration)
- Audible alarm, **no visual alarm**
- Evacuation concept for people with disabilities available
- All areas of this venue can be viewed virtually on the website mentioned above (360 degree tour).

- Steps straight, 16 - 17 cm high, **not all steps the same height**
- At least 120 cm wide, at least 30 cm deep
- **Handrail on one side only, higher than standard (85 - 90 cm)**
- Continuous handrail, safe to grasp
- Handrail **not extended by at least 30 cm at both ends of the stairs**
- Front edge of entrance and exit steps marked in contrasting colours

Cloakroom and staircase

INTERIOR AREA

- Paths level, without thresholds, at least 120 cm wide, free of obstacles
- Floor coverings everywhere slip-resistant and firmly laid
- Path max. 100 m long, **no seating available**
- **There is no orientation or escape plan on site**
- Very good orientation plan on the internet (360 degree tour)
- Signage with sufficiently large lettering, **not well lit**
- Barrier-free areas labelled with symbols

EVENT HALL

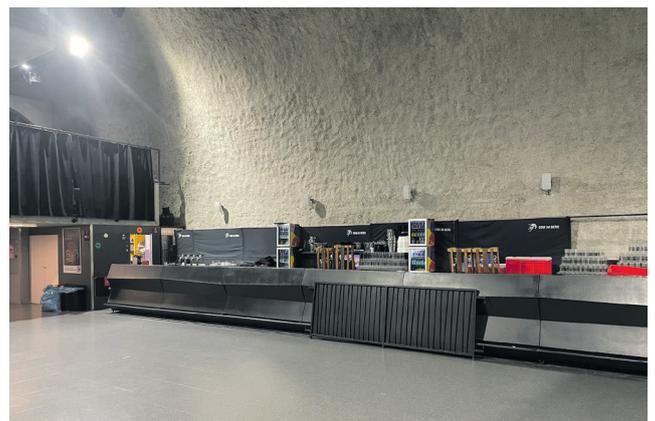

- Flexible seating, therefore flexible arrangement of wheelchair spaces possible
- Seating for any accompanying person possible next to wheelchair space
- Seats with sufficient legroom possible
- **Labelling of wheelchair spaces not possible due to flexible seating**

Large bar in the hall

- Accessible without thresholds
- To the left of the bar there is a lowered seat with a maximum height of 85 cm
- **No under-counter wheelchair access**
- 150 x 150 cm manoeuvring space guaranteed in front of the bar

Event hall

Large Bar

BARRIER-FREE WC

- Separately arranged (unisex)
- Accessible without steps, on the same level as the hall
- Movement space of 150 x 150 cm available in the WC room

WC door

- Hinged door, min. 80 cm clearance, no threshold
- Easy to open, no door closer
- Door opens outwards and can be unlocked from the outside in an emergency
- Access area of at least 200 x 150 cm on the opening side of the door, at least 150 x 120 cm on the closing side
- approach area of at least 50 cm on both sides of the door next to the door handle
- Door handles (no turning, knob or shell handle) at standard height (85 - 110 cm)

WC

- WC accessible from the right, at least 90 cm space on this side for approaching
- **less than 120 cm space in front of the WC bowl for approaching**
- Distance from the front edge of the WC to the rear wall at least 65 cm
- WC 46 - 48 cm high, back support available
- Horizontal grab rails on both sides, can be folded up on the approach side
- Folding support handle easy to operate and securely fastened
- Additional vertical grab rail
- **Clearance between the horizontal grab rails 72 cm** (standard 65 - 70 cm), upper edge 75 - 85 cm
- Grab rails protrude at least 15 cm beyond the front edge of the WC
- Folding support handle protrudes max. 20 cm into the room when folded up
- Paper can be reached from the WC while seated
- Flush at standard height, accessible from a seated position from the WC
- Emergency bell available, emergency call leads to the fire alarm centre
- Emergency bell accessible from the toilet while seated, **not accessible from the floor at a height of max. 35 cm above the floor**

Washbasin

- Movement space of 150 x 150 cm in front of the washbasin guaranteed
- **Depth less than standard**, top edge 80 - 85 cm high
- under-washbasin wheelchair access over a width of 100 cm
- Flat plaster siphon, siphon made of plastic or protected with porcelain
- Touchless tap, **distance between tap and front edge of washbasin less than standard** (20 - 35 cm)

Barrier-free WC

Other

- Mirror lower edge at max. 95 cm height
- Operating level of fittings (paper dispenser, soap dispenser, etc.) at a height of 80 - 110 cm
- Waste bin can be operated with one hand

INFORMATION FOR BLIND AND VISUALLY IMPAIRED PEOPLE

- Walkway boundaries are easily recognisable with a white cane (different surfaces)
- Height under signs at least 220 cm

Lift

- Labelling of operating buttons large enough, displays also easy to read
- **No tactile floor labelling**
- Push buttons are located in the immediate vicinity of the lift door
- Push buttons inside and outside **not with raised lettering**, but inside in Braille
- **Push button for building exit not highlighted**
- Pressing the push buttons is audibly confirmed (inside and outside)
- Audible signal when the lift arrives at the stop
- Audible, clear announcement in the lift
- Handrail available
- For more details see document 'Schlossberg lift'

DOM IM BERG ENTRANCE

Ramp from the lift to the entrance

- Straight, non-slip surface
- **Ends of the ramp not marked in contrasting colours across the entire width**
- **No contrasting change of surface at the ramp**
- Fall protection available, **no handrail**

Barrier-free entrance

- **The barrier-free entrance is a side entrance** (it is the lower entrance coming from the lift)
- **This entrance is often blocked and is only opened if necessary - communicate with staff!**
- Entrance free of obstacles
- **No tactile floor guidance system**
- **Door difficult to open, door closer** (fire door); depending on the event, the doors may also be open
- Glass door (**not marked with sufficient contrast**), **door opening side not labelled**
- **Door handle does not stand out in contrast to the neighbouring components**
- The main entrance is accessible via several steps

CLOAKROOM

- is accessible via a staircase
- Wardrobe is accepted by staff

STAIRCASE (also leads to the general toilets)

- Steps straight, 16 - 17 cm high, **not all steps the same height**
- At least 120 cm wide, at least 30 cm deep
- Handrail **on one side only, higher than standard** (85 - 90 cm)
- Continuous handrail, safe to grasp
- **Handrail not extended by at least 30 cm at both ends of the stairs**
- **Freely projecting ends are not extended downwards or sideways**
- The leading and trailing edges of the steps are marked in a contrasting colour
- **Handrail does not stand out from the background in a contrasting colour**

INTERIOR AREA

- **No tactile guidance system**
- Paths free of obstacles, passage heights of at least 210 cm
- Floor coverings contrast visually with other components
- Lighting is sufficient and corresponds to the area of use
- **There is no orientation or escape plan on site**
- Signage with sufficiently large lettering, not well illuminated
- Barrier-free areas are labelled with symbols
- **Room labelling and markings are not tactile**
- **Information not based on the 2-senses principle (visual/tactile, visual/acoustic)**

EVENT HALL

- **Access not tactile**
- Hall glare-free and evenly lit
- **No audible information during the performance**
- There is also a bar in the hall

BARRIER-FREE WC

- Separately arranged (unisex)
- Accessible without steps, on the same level as the auditorium

WC door

- Hinged door, easy to open, no door closer
- Door handle at standard height, contrasts with neighbouring components
- WC door opens outwards, can be unlocked from the outside in an emergency

WC

- Emergency bell available, emergency call leads to the fire alarm centre
- Emergency bell can be reached from the WC while seated
- **Emergency bell cannot be reached from the floor at a height of max. 35 cm above the floor**
- Emergency bell has a visually contrasting design, **not tactilely detectable**
- Equipment items stand out visually in contrast to their surroundings
