CATEGORY CONFERENCE HOTELS

Steiermarkhof - HOTEL.CONGRESS.TRAINING

In a peaceful setting on the west side of Graz, Steiermarkhof is a manifestly versatile training, conference and cultural centre with more than 3000 m² of space for events and an outdoor green area covering 10,000 m². With 20 up-to-date meeting rooms, a large ballroom for 400 people and a restaurant featuring seating for 240 and regional, seasonal cuisine, guests are invited to stay.meet.train among the greenery. Since September 2024, 66 new and high-quality hotel rooms have been available to our guests.

Hotel surrounded by greenery.
Our hotel in the south of Graz invites you on a journey through Styria. In the peaceful greenery at the foot of the Buchkogel and yet close to the motorway, our hotel in Graz offers 66 new rooms inspired by the 11 Styrian regions.

From the picturesque mountain and lake landscape of Bad Aussee to the historic and urban splendour of the city of Graz and the gentle hills of eastern and southern Styria: at the Steiermarkhof you will find rooms in Graz that offer more than just comfort: a journey through the green heart of Austria, a hotel in Graz that lets you experience the diverse beauty of Styria.

Conference centre surrounded by greenery.
Covering our proprietary training work and more besides, we offer guest organisers facilities for seminars, workshops, meetings and conferences. At the heart of Steiermarkhof is the Steiermarksaal hall (354 m²), offering capacity for events with up to 400 people. Also serving as versatile venues are Grimming, our second largest hall at 164 m², and numerous other air-conditioned meeting rooms from 22 to 95 m².

One of the new Steiermarkhof's highlights is the surrounding greenery covering 10,000 m², with plenty of inviting places to linger. Available for team-building and exercises in skill is our Aktivgarten, with facilities such as the team seesaw, plank race, slack line and spider's web. The focus here is on the shared experience, strategic thinking and a measure of skill.

Training in the green.
As the training, conference and cultural centre of the National Chamber of Agriculture and Forestry in Styria, training is at the focus of what we offer. In our training magazine we offer courses and events in the areas of personal development & literature, health & nutrition, creative design as well as art & culture. All year round we stage series of exhibitions in our 3 in-house galleries.

Celebrate in the green.
For celebrations of all kinds, the Steiermarkhof has 3 restaurant rooms with a total capacity of 240 seats and a large sun terrace. We offer our guests mainly Styrian cuisine with regional and seasonal ingredients. With the selection of the used food we set on products of farmer enterprises and regional supplier inside. The increased use of organically produced food rounds off our offer.
