Fascination through Diversity: A Space for Art and Experience

The structure of the former factory hall, combined with modern architecture, offers a wide range of possibilities. Where industry once thrived, concerts, performances, and experiences now come to life and leave a lasting impression.

Guided by the principle “The curtain must rise,” every event becomes something special. Flexible setups, state-of-the-art technology, and the unique atmosphere allow audiences to experience events from new perspectives and ensure that each one stands out from the crowd. Even before visiting our website and virtual 3D tour provide a glimpse behind the scenes and demonstrate just how versatile the Helmut List Hall is.
